14 September, 2010

Child Protection Inquiry Report delivery date

The Board of Inquiry has been working to a report release schedule based on the presentation of the report to the Chief Minister on 17 September followed by the tabling of the report in the Legislative Assembly on October 21 (three sitting days after the presentation date).

Due to a number of late arising matters including some legal considerations, the Board has sought a new release date from the Child Protection Minister. As the NT Government has now indicated that it will release the report publicly as soon as it is received, a new delivery date of 18 October has been agreed.
